

DD30B, DD35B

Volvo Small Asphalt Compactors

Main Features and Benefits

- TwinLock™ traction control and torque transfer system minimizes drum slippage for superior drum control at all speeds.
- Rustproof, pressurized, and optional triple filtered water system provides consistent flow to the drum surfaces, reducing asphalt pick-up.
- Easy-to-use side console enables you to fine-tune adjustments while compaction is underway.
- Cut fuel consumption with the auto-idle option, which reduces the engine speed when controls are inactive for over 60 seconds.
- The auto-vibration system automatically engages vibration when the machine reaches approximately 1.5 mph and disengages vibration when the speed falls below 1.2 mph. This helps prevent over-compaction and possible damage to the asphalt.
- The hinged engine hood tilts forward, providing ground-level access to the engine and hydraulic components.

Main Specifications

Operating Weight (w/ ROPS):

DD30B: 6,839 lb (3,102 kg)

DD35B: 8,185 lb (3,713 kg)

Drum Width:

DD30B: 49.2 in (1,250 mm)

DD35B: 54.1 in (1,375 mm)

Vibration Frequency:

DD30B: 4,000 vpm (66.7 Hz)

DD35B: 4,000 vpm (66.7 Hz)

Centrifugal Force:

DD30B: 7,500 lb (33 kN)

DD35B: 7,500 lb (33 kN)

DD30B, DD35B

Volvo Small Asphalt Compactors

AVAILABLE STANDARD OR OPTIONAL EQUIPMENT (not all equipment listed)

STANDARD EQUIPMENT

Open ROPS
Seat switch with timer delay
Single speed vibration
Selectable vibration: front, both
TwinLock™ anti-slip system
Easily accessible fuses and relays
Permanent fuel level display
Permanent water level indicator
Hand servicable spray nozzles
Adjustable spray flow rate
"Racetrack" maintenance decal
Sliding operator seat
Seat belt alarm
12 volt power point
Cup holder

OPTIONAL EQUIPMENT

Auto-idle
Foldable arch-ROPS
FOPS
Special paint
Rotating Beacon
Backup alarm
Anti-theft
Water Strainer
Hydraulic test ports
Cocoa mats installation
Work lights
Strobe lights
Inside scraper - urethane
Inside scraper - styrene

Supporting your success the Volvo Way

Volvo Certified Technicians care about your uptime.

Genuine Volvo Parts are designed for your machine and delivers premium quality and long life.

Volvo Customer Support Agreements ensure top performance: increase your production time, lower your maintenance costs, and help you get expert advice.

Equipment financing that works for you

As part of the Volvo Group, Volvo Financial Services understands your industry and Volvo products better than anyone else.

Whether you need to finance your next purchase or lease it, we'll make it easy to get your equipment working for you.

For more information contact your local Volvo dealer or visit www.vfsc.com.
